| • React.js | • JavaScript | • Bootstrap | • Object Oriented Programming |
| • Next.js | • TypeScript | • TailwindCSS | • Algorithm |
| • Node.js | • MongoDB | • REST APIs | • Data Structures |
| • Express.js | • MySQL | • C++ | |

PROJECTS

Noteworthy [🔗](#) | [React](#), [JavaScript](#), [vercel\(deployment\)](#), [github\(version control\)](#), [IDE - VS Code](#) **2024**

- a React-based note-taking app with a dynamic checklist feature for adding and managing tasks, offering users an intuitive way to track and complete their goals.
- Implemented core functionalities including note creation, task addition, and task deletion, providing users with an efficient and user-friendly interface for organizing their thoughts and responsibilities.
- Created a responsive design for Noteworthy, ensuring compatibility across various devices and screen sizes to deliver a consistent and accessible user experience.

Netflix-Clone [🔗](#) | [HTML](#), [CSS](#), [JavaScript](#)

2023

- Developed a Netflix clone, replicating the landing page using HTML, CSS, and JavaScript to accurately mirror the visual design and user experience of the original platform.
- Implemented key features, including a dynamic content carousel, responsive navigation menu, and interactive elements, enhancing the realism and functionality of the clone.

Videochum [🔗](#) | [JavaScript](#), [CSS](#), [HTML](#)

2023

- Created Video Chum, a video conferencing application using HTML, CSS, and JavaScript, providing users with a seamless interface to connect and communicate.
- Implemented front-end features, including room creation and link generation, to facilitate easy and efficient video call setup and participation.
- Currently learning and integrating WebRTC and Socket.IO for the backend, aiming to enhance real-time communication capabilities and enable robust video conferencing functionalities.

Experience

Summercool Home Appliances Limited [🔗](#)

02 2024 – 04 2024

React Developer

Gaziabad, India

- As a React Developer, I was responsible for converting pre-existing HTML, CSS, and JavaScript code into modern React code. I developed and integrated reusable React components, ensuring seamless functionality within the existing codebase. Collaborating closely with senior developers, I received and implemented feedback to enhance the application. Additionally, I conducted thorough testing and debugging to ensure high-quality performance and reliability of the application
